## Trailing Edge to Switch-Dim Dimming Interface <br> HYTRONIK

HD2200

## Applications

Ideal for mounting into a standard lighting backbox, this dimmer interface provides smooth dimming via the popular Switch-DIM logic to light fixtures using trailing edge technology
■ Office / Commercial Lighting
■ Home office / Domestic use
Use for retrofit upgrades \& new installations.

## Features

(2) Switch-Dim with Synchronization

L Logarithmic Dimming Curve
(.) Minimum Dimming Adjustment
(01) Permanent Memory
$\pm$ Short Circuit Protection
I Over-load Protection
(5. 5 Year, 50,000hr Warranty

## Technical Data

| Mains Voltage | 230VAC 50 Hz |
| :--- | :--- |
| Mains Power | 200W (resistive) / 150W (capacitive) |
| Operation Temperature | Ta: $-20 \sim+45^{\circ} \mathrm{C}$ |
| Dimming Range | $5 \%-100 \%$ |
| Abnormal Protection | Output short-circuit protection with auto-reset. |
| Over-heat protection | Over-heat protection with auto-reset. |
| EMC Standard | EN55015, EN6 1547, EN6 1000-3-2, EN6 1000-3-3 |
| Safety Standard | EN60669-1, EN60669-2-1 |
| Certifications | Semko, CB, RCM, CE , EMC |
| IP Grade | IP20 |

Wire Preparation

$0.75-4.0 \mathrm{~mm}^{\square}$

Solid or Stranded wire type.

Compatibility with the lamp control gear may be improved if flickering occurs at the minimum dimming level. Use a screwdriver to adjust the potentiometer to set the minimum dimming level

## Wiring Diagram

Multiple Dimmer Connection

Switch-Dim
The provided Switch-Dim interface allows a simple dimming method using commercially available non-latching (momentary) wall switches. Up to 50 LED drivers may be connected to one switch.

Switch Action
Short press (<0.4 second)
Note: short press has to be longer than 0.1 s , or it will be invalid.
Long press (>0.4 second)

## Synchronization

Switch Action
Long press (> 15 seconds)

Response
Toggle light on / off

Toggle dim light / increase brightness

## Response

All lights will dim down to minimum then return to $50 \%$ brightness

* We recommend the number of drivers connected to a switch does not exceed 25 pieces. The maximum length of the wires from push to driver should be no more than 20 meters.
