

# Single Color LED Strip Controller

**Model No.: FUT036**

Working Voltage: DC12V~24V

Output: Max 12A

Working Temperature: -20~60°C

RF: 2.4GHz

Transmitting power: 6dBm

Max Controlling Distance: 30m

Output Connection: Common anode

Dimmable control

Smartphone APP control  
(2.4GHz gateway is needed)

2.4G RF wireless  
transmission technology

Support third party voice control  
(2.4GHz gateway is needed)

Remote control  
Control distance 30m

## Introduction

Controller adopt the widely used 2.4GHz wireless technology with the features of low power consumption, long signal transmitting and strong anti-interference, etc. Controller has auto-transmitting and auto-synchronizing function. Widely used on the controlling of hotel lighting and home lighting.

## Signal transmitting

One strip controller can transmit the signals from the remote control to another controller within 30m, as long as there is a strip controller within 30m, the remote control distance can be limitless.

## Link/Unlink

Compatible with these remote controls (Purchased separately)
