

# SERIES COB CCT

COB | 608 | 24  
HI LUX

**LINEAR LUX**  
LED LIGHTING SOLUTIONS

## Features

- Dual colour CCT colour selection
- High density 608x chips/m COB LED
- **No visible dot design**
- **High CRI >90**
- Efficient heat design, requires no heat-sink
- Ultra flexible substrate
- Safe low voltage
- Pre-wired at both ends
- Double sided tape mounting

## Electrical Data

Voltage	24.0 VDC
Wattage per metre	24 W (Both chips)
Current per metre	0.5 A / 24 V (Single chip) 1.0 A / 24 V (Both chips)

## LED Data

LED type	COB
Manufacturer	SANAN
Chips per metre	608

## Photometric Data

Colour temperature	See figure 2
Colour rendering index Ra 	>90
Luminous flux per metre	1080 lm (2700K) 1248 lm (6000K)
Luminous efficacy	97 lm/W (avg)
Beam angle	160°
Dimmable	1 ~ 100%

## Construction / Protection Data

Substrate	Double layer FPCB
Thickness of FPCB	3 oz
Mounting	Double sided tape 3M
IP rating	See figure 3
Operating temperature	-20 ~ +70 C°
Storage temperature	-20 ~ +50 C°

## Dimensions

Cutting increments	26.31mm
Length	5000mm
Width	10.0mm
Height	1.8mm

## Lifetime

Lifespan (L70)	>50,000 hours
----------------	---------------

Testing environment temperature = 25°C ±2.0°

IP Protection Ratings

## Dimensions

IP20

IP67

## Ordering Information

LL COB	608	24	CCT	IP20	5M
LED Type	Chips / m	Voltage	Colour	IP Rating	Length
COB	608	24	CCT	20 67	5m

\* Blue, green, and red LEDs can be ordered as an indent item, MOQ may apply

## Installation

- The mounting surface must be clean, dry and free from dust or grease.
- Carefully unroll the LED strip from the reel.
- Measure and cut the LED strip to the required length (only cut at the predefined cut interval).
- Remove the 3M self-adhesive backing tape from the LED strip carefully. **Do not remove all the backing at once otherwise the LED strip may become entangled.**
- Stick down the LED strip to the mounting surface by pressing down gently on the LED strip. **Do not apply excessive force to the LED strip, otherwise the LEDs and components may become damaged.**
- Once the LED strip has been mounted, it is then ready to be wired and powered.

**For more detailed instruction on installation & wiring please see the product page on our website.**

## Notes

- It is not recommended to power a continuous length longer than **[5m for 12V]** or **[10m for 24V]** LED strip due to voltage drop.
- **Do not exceed the rated input voltage**, always ensure a regulated power supply is used.
